

T7 - End of Study Project

T-ESP-800

End Study Project

Project

End Study Project

binary name: T-ESP-800_{\$AcademicYear_}\$GroupName.zip
delivery method: Moodle

- The totality of your source files, except all useless files (binary, temp files, obj files,...), must be included in your delivery.
- All the bonus files (including a potential specific Makefile) should be in a directory named *bonus*.

INTRODUCTION

In the previous unit, you defined your project and chose your partners. It's now time to start working !

You will have two milestones by the end of august.

Through this agenda, you must work on your project following the specifications defined before.

We assume that you will not have enough time to finish ! It's your responsibility to give to the next contributors all the tools, documents and processes that will allow new arrivals to integrate the project.

REQUIREMENT

- You **MUST** define processes and working method
- You **MUST** define quality assurance processes
- You **MUST** follow the specifications defined before
- You **MUST** list technical fields needed by the project
- You **MUST** write jobs descriptions

DELIVERY

You are expected to deliver in this project the following files :

- Source code of project
- A document that lays out development method, norm ect ...
- Quality Assurance Testing (QAT)
- User Acceptance Testing (UAT)
- Specifications document updated
